## Presentations To ED Down During COVID-19?

Western Sydney Local Health District has crunched the numbers throughout the pandemic on presentations to their Emergency Departments.

Have the restrictions and lockdown caused less presentations to their Emergency Departments? If so why?

Find out [here](#) in the Medical Journal of Australia

Access provided by CIAP.

## What Is The Diagnosis?

A 53-year-old woman with metastatic signet-ring appendiceal cancer receiving treatment with panitumumab presents with a 2-month history of trichomegaly. What is the cause of this physical examination finding?

[See the results](#) from The New England Journal of Medicine Image Challenge.

## CIAP Resource Spotlight: PCF

The Palliative Care Formulary provides expert drug information for health professionals when caring for adult patients facing progressive life-limiting diseases.

The PFC goes beyond standard references providing health professionals with in-depth and practical guidance on drugs and treatment regimens to help improve quality of life.

Check out the [Palliative Care Formulary here](#).

Access provided by CIAP.

## New: Breastfeeding And Human Lactation

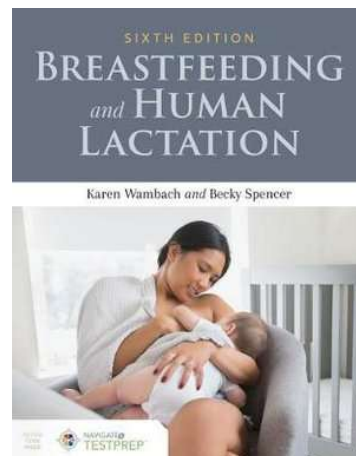

Breastfeeding and Human Lactation, Sixth Edition provides the latest clinical techniques and research findings that direct evidence-based clinical practice for lactation consultants and specialists.

Topics include placing breastfeeding in its historical context, workplace-related issues, anatomical and biological imperatives of lactation, the prenatal and perinatal periods and concerns during the postpartum period, the mother's health, and sociocultural issues.

Recently updated and revised, the new edition includes new case studies, expanded cultural content, new regulations and guidelines, more information on alternative medicine, and gender inclusive language.

Access provided by CIAP.

## Risk Of Covid-19 And Air Travel

How does air flow and passenger seating help minimise the spread of Covid-19?

What steps can passengers also take to help reduce the spread while travelling through airports, flying and when they reach their destination?
