

Good morning, Vien. Can Cinnamon Help With Diabetes? New Toxicology Guidelines, 3D Printed Nasal Swabs and more.

CIAP News September 2020 | Issue 9

New Resource: Oxford Medicine Online

To support NSW Health's COVID-19 response, Oxford University Press have granted temporary access to their prestigious medical textbook collection until December 2020.

Check out CIAP's A-Z Books list to browse the over 1,100 books which cover every clinical specialty from addiction to urology and include several well-known series – the Oxford Textbooks, Handbooks, Specialist Handbooks, Controversies etc.

Many of which include exclusive digital tools such as videos, graphics and more.

Congratulations To Assoc Prof Anne Moseley!

Belated congratulations to Assoc Prof Anne Moseley, co-founder of PEDro, the [Physiotherapy Evidence Database](#).

Last year she received the World Confederation of Physical Therapy's highest honour, the Midred Elson Award, for outstanding leadership and contribution to Physiotherapy. PEDro was launched in Australia in 1999 and has since grown to a major global resource for the physiotherapy profession.

Assoc Prof Moseley will be speaking at the up-coming CIAP Allied Health Evidence Based Practice Online Workshop on September 17th.

Only a few online spaces remain so be sure to register ASAP to secure your [free place here](#).

Therapeutic Guidelines Update

New Toxicology and Toxinology Guidelines

The new Toxicology and Toxinology guidelines are now available from the Therapeutic Guidelines (eTG) on CIAP.

This is a major update and replaces the 2012 Toxicology & Wilderness Guidelines. It includes updates to existing monographs and many new ones, with more detail and increased coverage of rare and highly toxic agents.

The Toxicology and Toxinology guidelines are recommended to NSW Health clinicians by the NSW Poisons Information Centre (PIC).

Out Of Swabs? Just Print One.

With extreme demand placed on swabs and laboratory consumables since the start of the pandemic, can't we just 3D print more if we run out?

Find out in the Medical Journal of Australia.

Access provided by CIAP.

Does Cinnamon Have A Role In Diabetes Care?

A small study suggests that taking a cinnamon combination product daily improves blood sugar control in people with prediabetes. Just how effective is this treatment?

Find out in Natural Medicines.

Access provided by CIAP.
